

Guided Tour of Chelsea Physic Garden

Wednesday 8th May at 11.30 am.

Since 1673, Chelsea Physic Garden has been evolving with the world around it. Today, as a four-acre green space in the heart of London, the Garden contributes to the city's biodiversity and provides a place for people to connect with nature.

Sitting on the Thames Embankment, and sheltered by high walls, Chelsea Physic Garden is one of the oldest and most respected botanic gardens in Europe. It is the oldest in London, and only surpassed in age, in England, by Oxford Botanic Garden.

Founded in 1673 by The Worshipful Society of Apothecaries of London for its apprentices to study medicinal plants and their uses, it became one of the most important centres of botany and plant exchange in the world. Chelsea Physic Garden's plant collection is unique in being the only botanic garden collection focused on medicinal, herbal and useful plants.
